4. Issues

Issue	Status	Notes
Building the team	In Progress	
Plan the regular customer meetings	Planning Phase	

5. Evaluation criteria

- All project team responsibilities are identified.
- All use cases are identified and defined in a brief format.
- 20% of the use cases are selected according to their business value, risks, and architectural importance and those use cases are written in a fully-dressed format.
- The base Project Plan is prepared.
- High-level risks are identified and documented.
- Project milestones are identified.
- The vision document is created.
- Glossary is created.

6. Assessment

Assessment target	Team responsibilities are identified The project plan is prepared High-level risks are identified and documented Product milestones are identified The vision document is created Glossary is created
Assessment date	01.03.2020
Participants	Deniz Çoker Gülşah Kırtıloğlu Serçin Üstündağ
Work Items: Planned compared to actually completed	All planned work items are completed in the iteration.
Project status	On track
Other concerns and deviations	All documents will be reviewed in the following iterations and updated if necessary.
