

## **Read me**

**1- To execute the program, you need to put the database file and executable jar file in the same folder.**

**2-** Database has 2 personal trainers. Personal trainers are assigned as PT in database.

So, we recommend you to use those personal trainers in order to understand PT operations.

PT1: Merve Fitoğlu

E-mail: fitoglu.merve@yahoo.com

Password: test1

PT2: Nejat Sixpack

E-mail: sixpack\_forever@gmail.com

Password: test4

**3-** PT1, Merve Fitoğlu has a schedule. On the other hand PT2, Nejat Sixpack, has no schedule in the system. You can test them.

**4-** You can update Merve's schedule as you wish using our PT Schedule Dashboard.

**5-** For members, if you wish, you can add members via registering and signing in. You can also use our test member for sign in.

Berkecan Concon
